

Product: Bleach

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Trade Name:	BLEACH			
SUPPLIER:	Polo Citrus Australia P	Polo Citrus Australia Pty Ltd		
ADDRESS:	30 Spencer Street Suns	shine West VIC 3020		
TELEPHONE:	+61 3 93649700	FAX:	+61 3 93647500	
AH EMERGENCY TELEPHONE:	13 1126 in Australia	ABN:	18 064 601 332	
Substance:	Liquid	Product Use:	Sanitising / Bleach	
Creation Date:	March 2019	Revision Date:	March 2024	
Product Code:				

SECTION 2 – HAZARDS IDENTIFICATION

Classification of the substance or mixture

- This product is classified as **HAZARDOUS** according to criteria of Safe Work Australia.
- The product is **NOT a DANGEROUS GOOD** according to the Australian Dangerous Goods (ADG) Code.
- The product is classified as **HAZARDOUS** according to GHS.

GHS - GLOBALLY HARMONISED SYSTEM		
GHS Classification	Skin Irritation – Category 2	
	Eye Irritation - Category 2	
GHS Pictogram		
GHS Signal Word	Warning	

Hazard statement(s)	
H315	Causes skin irritation
H319	Causes serious eye irritation
AUH031	Contact with acids liberates toxic gas

Precautionary statement(s): General		
P101	If medical advice is needed, have product container or label at hand.	
P102	Keep out of reach of children.	
P103	Read label before use.	

Date of Issue: MARCH 2019 Page 1 of Total 11
--

Product: Bleach

Precautionary statement(s): Prevention		
P264 + P280	Wash hands thoroughly after use. Wear protective gloves.	

Precautionary statement(s): Response

P302 + P352	IF ON SKIN: Wash with plenty of soap and water.		
P321	Specific treatment (see First Aid on safety data sheet).		
P332 + 313	If skin irritation occurs: get medical advice/attention.		
P362	Take off contaminated clothing and wash before reuse.		
P305 + P351 + P338	IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses if present and if easy to do.		
P337 + P313	If eye irritation persists: get medical advice/attention		

Precautionary statement(s): Storage

Precautionary statement(s): Disposal

ADG CODE DANGEROUS GOODS

POISON SCHEDULES	
SUSMP Classification	none allocated

EMERGENCY OVERVIEW				
Colour	Pale yellow	Odour	Chlorine odour	
Physical Description	Liquid Viscosity Not relevant			
Major Health Hazards	None known			
Note				
IMPORTANT	This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied. When diluted to 1:2 or greater they no longer apply.			

Date of Issue: MARCH 2019	Page 2 of Total 11
---------------------------	--------------------

Product: Bleach

However, good hygiene and housekeeping practices should be adhered to.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients:	CAS Number:	Proportion:
Sodium Hypochlorite	7681-52-9	< 5 % w/w
Ingredients determined to be	various	Balance
non-hazardous (nonionic		
surfactants, chelators, dye)		

NOTE:	Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011.
	LABELLING OF CHEMICALS (GHS) , 4th edition United Nations 2011.
	Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for
	information purposes and for additive effects.

SECTION 4 – FIRST AID MEASURES

Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, Ner Zealand can provide additional assistance for scheduled poisons. (Phone Australi 131126 or New Zealand 0800 764 766).	
First Aid Facilities Required	Ensure there is access to eye washes and safety showers.	
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.	
Skin contact	Wash skin with plenty of water. Seek medical advice (e.g. doctor) if irritation, burning or redness develops. Seek medical advice (e.g. doctor).	

Product: Bleach

Eye contact	Immediately irrigate with copious quantities of water for at least 20 minutes. Eyelids to be held open. Seek urgent medical advice (e.g. ophthalmologist) if symptoms persist.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek urgent medical advice (e.g. doctor).
Advice to Doctor	Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

SECTION 5 – FIRE FIGHTING MEASURES			
Fire and Explosion	Non flammable.		
Hazards			
Extinguishing Media	Use an extinguishing media suitable for surrounding fires.		
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear		
	self-contained breathing apparatus if risk of exposure to products of combustion or		
	decomposition.		
Flash Point	Non combustible		

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Emergency Procedures	 Shut off engine and electrical equipment and leave off. Move people from immediate area; keep upwind. Stop leak if safe to do so. Send messenger to notify fire brigade and police. Tell them location, material quantity, emergency contact. Indicate condition of vehicle and damage or injuries observed. 	
	Warn other traffic.	
Occupational Release	Minor spills do not normally need any special clean-up measures. In the event of major spill, prevent spillage from entering drains or water courses. Wear appropriat protective equipment as in section 8 below to prevent skin and eye contamination. Spill material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits wir remain slippery. Wash area down with excess water. If required, neutralize with sodiur	

|--|

Product: Bleach

metabisulphite or sodium thiosulphate. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.

SECTION 7 – HANDLING AND STORAGE

- Handling As with any chemical, avoid excessive personal contact. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use.
- **Storage** Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light alloy containers. Store away from acids. Keep containers closed at all times check regularly for leaks

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Control parameters	
Occupational Exposure	No exposure standards have been established for the mixture. However, over-exposure to some
Limits	chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic
	reactions and should be kept to the least possible levels.

Control parameters	
Biological Limits	No biological limits allocated.

PERSONAL PROTECTION PPE		
Ventilation	Use only in a well-ventilated area. Ensure ventilation is adequate to maintain air concentrations below exposure standards.	
Personal Protective	Use good occupational work practice.	
Equipment	The use of protective clothing and equipment depends upon the degree and nature of exposure.	
	Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.	

Date of Issue: MARCH 2019 Page 5 of Total 11
--

Product: Bleach

The following protective equipment should be available;

The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

Wear gloves. Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

Material suitable for mild detergent contact – Butyl rubber, Natural Latex, Neoprene, **Protective Material** Types PVC, and Nitrile.

Respirator

Not required for normal cleaning operations with adequate ventilation. If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Liquid	Colour	Pale Yellow
Odour	Chlorine	Specific Gravity	∼ 1.1 @ 25 ºC
Boiling Point	Approximately 100 °C	Freezing Point	Approximately 0 ºC
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Not flammable	Flammable Limits	None
Water Solubility	Miscible in all proportions	рН	~ 11 @ 25 ºC (1% w/w
			water)

Product: Bleach

Volatile Organic		Coefficient of Water/Oil	
Compounds (VOC)	0 % v/v	Distribution	Not available
Viscosity	Not available	Odour Threshold	Not available
Evaporation Rate	Not available	Per Cent Volatile	Not available

SECTION 10 – STABILITY AND REACTIVITY

Reactivity	Stable at normal temperatures and pressure.
Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of
	temperature and pressure.
Conditions to avoid	Avoid contact with heat or heat sources. Acids.
Incompatible materials	ACIDS: reaction can occur, yielding heat and pressure which can burst an enclosed container. Attacks many reactive metals (aluminium/magnesium/zinc alloys) releasing highly flammable gas (hydrogen) which generates fire or explosion hazards. Reacts slowly with ambient air (particularly carbon dioxide) which may cause certain insoluble salts top form in solutions.
Hazardous	Product can decompose on combustion to form Carbon Monoxide, Carbon Dioxide, and
decomposition	other possibly toxic gases and vapours. Acids (especially hydrochloric acid); will
products	generate toxic gas.
Hazardous Reactions	None known.

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Inhaled	Inhalation over exposure may result in mucous membrane irritation of the respiratory
	tract and coughing.
Ingestion	Ingestion may result in irritation to the mouth and throat, nausea, vomiting.
Skin Contact	Skin contact may result in irritation, redness, pain, rash, dermatitis. Severity depends on
	the concentration and duration of exposure.
Eye	Contact may result in irritation, lacrimation, pain, redness, conjunctivitis.
Chronic	No known effects.

BLEACH		
	ΤΟΧΙCITY	IRRITATION

Product: Bleach

LD50 calculated >10,000mg/kg	Mild irritation – skin.
not toxic	Mild irritation – eyes.

SECTION 12 – ECOLOGICAL INFORMATION

General	No single ingredient (over 1%) recognised as environmental pollutant. Product miscible in all
	proportions with water. AS WITH ANY CHEMICAL PRODUCT, DO NOT DISCHARGE INTO
	DRAINS, WATERWAYS, SEWER OR ENVIRONMENT. Inform local authorities if this occurs.

Aquatic Toxicity	
BLEACH (as sold)	Acute Toxicity to fish (calculated from ingredients): LC50: 1.4 - 121 mg/L
	Acute Aquatic Toxicity Cat 2. Toxic to aquatic life. Biodegradable.
BLEACH (at use dilution)	
	Acute Aquatic Toxicity (Calculated) LC50: 144 - 12134 mg/L.
	Acute Aquatic Toxicity NOT HAZARDOUS – Not harmful to aquatic life. LC50 > 100mg/L.

SECTION 13 – DISPOSAL CONSIDERATIONS

Product and PackagingDispose of contents/container to chemical landfill. Consult local or regional waste
management authority for further details.

SECTION 14 – TRANSPORT INFORMATION

Product: Bleach

Risk assessments	This SDS is a tool to communicate hazards which can assist you in creating relevant risk assessments for your workplace. There are many variables in determining whether a particular hazard is a risk in your workplace. Keep in mind this may be influenced by such things as the amount used, frequency of use, engineering controls, effectiveness of safety training and many more considerations.	
Disclaimer	This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.	
Note	Safety Data Sheets are updated frequently. Please ensure that you have a current copy.
